**Request for Qualifications - Owner Representative Process
Requests for Information**

This document references information about the Presentation and Interview phase of the Owner Representative Selection Process for Lacey Fire District 3. Five firms provided Statement of Qualification Submittals for this process on May 26, 2026. The District evaluated and narrowed the list to three firms who have been invited to participate in the presentation and interview process.

Two requests for information have been received regarding this process. The response to those questions are provided below:

Question: Who will be part of the Selection Committee for the presentation and interview process?

The Selection committee is comprised of Lacey Fire District 3 employees from Executive Administration, Finance and Operations. The District's contracted architectural firm, Rice Fergus Miller, will also be present in a non-scoring capacity.

Question: What firms have been invited to participate in the presentation and interview process?

The three firms invited to participate in the presentation and interview process include (in alphabetical order);

- ***Barker Creek Consulting***
- ***Consertus***
- ***Turner & Townsend Heery***

The District is continuing its evaluation process and has not made a final selection. The structured presentation and interview does not guarantee a contract award. Final selection remains subject to District review, negotiation, and approval consistent with applicable public procurement requirements.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael Cerovski", is written over a faint, larger version of the same signature.
